### Insights from Alumni Feedback

1. Analytics needs to be launched as core specialization and Operations as a minor specialization for the PGDM program, in light of the inputs received from the alumni students.
2. It was also suggested that additional certification course on financial modeling by Cians analytics to be moved up to semester-II for better effectiveness before students proceed to complete their summer internship program.
3. It was suggested that Sector-specific training labs for all students to be initiated during the "Business Orientation Program".

4. It was also realized that assessment of summer internship projects should become more domain and sector-specific, hence it was proposed to align the sector and profile specific evaluators from the industry to conduct internship project evaluation.
5. In order to ensure holistic student development through extra-curricular and co-curricular activities, the addition of outbound trek and training activities for students.
6. **Increase in the number of Live projects** would also give exposure to the students
7. Alumni appreciated the exposure they got from the college for interactions with corporates as it helps give them an edge once they join the corporate world.
8. **Mr. Aman Sharma – Process Manager – Eclerx** expressed his happiness of being back on the platform which has given him the bright future. He expressed that he was speechless on this occasion looking into hospitality provided by the college authorities and interaction with his friends in person. 2 Years in PGDM difficult to describe in 4-5 lines, however would explicitly give it a rating of A+. The 2 years at PIBM - the Team work combined Projects, working Odd Hours to meet the deadlines and working with a Diverse Set of People - actually prepared me to face the harsh corporate world.
9. **Mr. Aman Jain – Territory Manager – Dabur India** : PIBM's PGDM Program was truly satisfactory, I recall that the period spent here was one of the best periods of my life. I was satisfied with the flexibility and variety of options available in choosing courses. There is a strong correlation between courses and they are well organized to focus on career objectives. The multicultural environment and capable FACULTY MEMBERS at PIBM furnished me with a solid academic foundation and skills for my current responsibilities. With Sincerity/Self Honesty, Self Discipline, Maturity, Patience & dedication, we can achieve anything in this world and this I have learned in PIBM.
